

MUHAMAD AMIRUL ILMAN BIN MAZLAN

Software Engineer (Full Stack Engineer | Software Engineer | App Developer | IOS Developer)

Kuala Lumpur, Malaysia | ilman1amirul@gmail.com | 019-5756260

LinkedIn: www.linkedin.com/in/muhamad-amirul-ilman-bin-mazlan

SUMMARY

Software Engineer with 5+ years of experience building scalable enterprise and product-driven applications across frontend and backend technologies. Strong expertise in React, Angular, Node.js, and .NET, with hands-on experience in full-stack development, system integration, and database design. Passionate about building real-world products and exploring AI-driven solutions.

EXPERIENCE

❖ *TCS (March 2026 – Present)*

Full Stack Engineer – Petronas POINT

- Developed full-stack applications using Angular and .NET Core
- Designed RESTful APIs using ASP.NET Core and Entity Framework
- Built reusable UI components using Angular Material
- Collaborated in Agile sprints using Git, Azure DevOps, and Jira to deliver scalable solutions.
- Implemented authentication and role-based access
- Integrated frontend and backend seamlessly, handling authentication, authorization, and role-based access.

TECH STACK: Angular JS, DOTNET, GIT, AZURE DevOps, Teams, SQL Server Management Studio (SSMS)

❖ *FPT Software (May 2024 – February 2026)*

Frontend Engineer – Petronas POTF (Vendor FPT Software)

- Built and maintained enterprise-scale web applications using Angular and TypeScript.
- Developed dynamic components with Angular Material and PrimeNG for complex UI requirements.
- Implemented reactive forms, data bindings, and modular architecture to ensure maintainability and scalability.
- Integrated RESTful APIs from .NET backend using HttpClient and handled token-based authentication.
- Followed best practices with lazy loading, guards, and routing to improve performance and user flow.
- Collaborated in Agile teams using Git, Jira, and CI/CD pipelines to ensure efficient delivery.

TECH STACK: ANGULAR JS, GIT, AZURE DevOps, Teams

Frontend Engineer – Petronas MyHSE+

- Developed modern and responsive user interfaces using React.js and Material UI.
- Implemented state management using Redux Toolkit and Context API for scalable front-end architecture.
- Collaborated with backend teams to integrate RESTful APIs into dynamic React components.
- Built reusable and optimized components to ensure consistent UI across web applications.
- Implemented responsive designs and cross-browser compatibility using modern CSS techniques and MUI theming.
- Worked closely with product owners and UI/UX designers to translate designs into high-quality code.
- Optimized performance using React hooks, code splitting, and lazy loading techniques.

TECH STACK: React JS, GIT, AZURE DevOps, Teams

Database Engineer – Petronas Pivot

- Work with headquarter senior staffs in Pivot team to get knowledge of system.
- Coding and review code.
- Code to maintain and upgrade features
- Develop new functions according to the task assigned in azure.

TECH STACK: DBEAVER, GIT, AZURE DevOps, Teams

❖ *Webby Group (Contract)*

Frontend Developer

- Working closely with other senior engineers on developing and integrating meta mask and wallet into web apps such as Angular JS, Vue JS and React JS.
- Develop components using React Native and using Android emulator
- Collaborated in Agile sprints using Git, Azure DevOps, and Jira to deliver scalable solutions.

TECH STACK: React Native, GIT, AZURE DevOps, Slack

❖ *Moneymatch (Intern)*

Frontend Developer Intern

- Developed UI components and integrated APIs
- Collaborated in Agile sprints using Git, Azure DevOps, and Jira to deliver scalable solutions.

TECH STACK: React JS, GIT, AZURE DevOps, Slack

PERSONAL PROJECTS

Barber Booking Platform (DigitalQ – QR Barber Queue System)

- Built SaaS platform for barber queue management
- Developed frontend using React
- Designed real-time queue system

TECH STACK: React JS, GIT, GITHUB, FIREBASE

Charity App App Store and Play Store (Sujood)

- Developed an App that enables users give charity to their preferred mosque and prayer hall via online
- Utilizing Libraries and State Managements to enhance performance and User Interface such as Redux, Material Ui and much more

TECH STACK: React Native, GIT, Express JS

TECHSTACK

- **Frontend:** React, Angular, Vue, React Native, TypeScript, JavaScript, HTML, CSS, Material UI, Tailwind
- **Backend:** Node.js, Express.js, .NET Core Database: PostgreSQL, MongoDB, Firebase, Supabase, SQL Server
- **Tools:** Git, GitHub, Azure DevOps, Jira, Postman, DBeaver

EDUCATION

Bachelor of Computer Science – UiTM (2020)

Diploma in Computer Science – UiTM (2015)
